Subject: [External] CTS Site Selection in Cambridge Ontario

Please review the attached document with my concerns regarding the site selection and it's process for Cambridge Ontario

Excerpt here:

I am extremely dismayed with the idea that we are going to be attracting addicts from the whole Waterloo Region right into our downtown core – it is ludicrous. I am even more dismayed however with the way our Mayor and Council feel they have the right to exclude public input and even input from opposing councillors in the decision-making process. They have completely disregarded the whole municipal political mandate and process and are behaving as a autocratic ruling council. I urge you to halt any funding for this project and initiate a full investigation into the actions of this Mayor and her Council.
