

Subject: [External] CTS site

Good morning,

I am writing to you to express my total disgust and disappointment on the Cambridge City Council meeting on October 12th.

Our elected officials manipulated municipal procedure to approve a CTS site that is strongly rejected by its constituents. These members used their own personal feelings to pass a plan to open a CTS site in Cambridge. This is a plan that is strongly rejected by the people that they represent. This has been made clear numerous times!

When you are in a position of power to represent those who voted you into the system, your job is to represent those same people. This is not what happened. In order to ensure their own personal agendas were met, they failed to inform councillors that they knew didn't agree, and the public that they were putting this motion forward.

We supposedly live in a democratic country, yet these members of government feel they are above this and they do as they please, ignoring the people very same people they represent.

A very concern citizen,

Marcia Viana
