

Subject: [External] Concerned about CTS in Cambridge, ON

I am very concerned about our city council. It's clear that they did not respect the wishes of Cambridge residents when ramming through their idea for a CTS at 150 Main St., a location they previously said was off the table. Can you look into this issue, and possibly come up with some sort of compromise that would make more sense for Cambridge, and all of its citizens and businesses? Thanks.

Andrew
