Re: November 5, 2024 council meeting to discuss Queenston Road and Westminster Drive all-way stop control.

I have lived in the area of this intersection for around 37 years. This intersection has always been an issue and I have had several close calls over the years. In February of this year it was unfortunately my time ran out and I was t-boned by someone who couldn't or didn't stop at the stop sign. Putting an all-way stop at this intersection will definitely help but probably will not eliminate all the issues. Removing some of the visual obstructions has helped. The all-way stop is another step in the right direction and will probably help a little. After this we need to address the following issues on Cambridge roads (which aren't just a problem at this intersection): speeding, rolling stops and inattentiveness to name a few.

In closing I hope that council approves the all-way stop at this intersection and continues to look at ways to make our roads safer for vehicles and pedestrians.

John and Wendy Gee
