

Subject: [External] Cambridge arena proposal -Preston Aud

Hello,

My son is 12 years old and has played hockey his whole life. As we travel to play against other cities it's hard to not notice that virtually every community we travel to, including ones much smaller than Cambridge, all have much more modern, better arenas than that which our kids are forced to play in. Quite frankly, Duncan Macintosh, Karl Homuth and Dickson arenas are an embarrassment and do not have adequate facilities (the changerooms aren't even big enough for all the kids to get dressed together, forcing kids to change in the hallways). We desperately need more and newer modern arenas to service this community. I hope that you will vote accordingly and vote for the twinning of the Preston Aud when the proposal comes up for vote tomorrow night. It will go a long way towards securing my vote the next time election time comes around.

Thank you.

Tim
