

Hi,

My name is Chris McClellan and I live at [REDACTED] in Cambridge. I'm responding to the letter you sent on January 5th regarding the recommendations for reducing the speed of traffic along Beaverdale Rd. All 3 recommendations are fantastic ideas, and I look forward to their implementation. Thank you for looking into this, as the amount of speeding vehicles along Beaverdale has increased over the years, and it's only a matter of time before me or one of my neighbours is struck while trying to enter or exit our driveways. If I could make a 4th suggestion, adding a 3 way stop sign at the intersection of Beaverdale and Mohawk would also help to reduce the speed of traffic along the stretch of Beaverdale Rd where I live. There is a change in elevation there that creates a blind spot, and a speeding vehicle is upon you, very very quickly.

Thanks again for your time and consideration, Chris McClellan
