Hi,

I recently came across this article and wanted to share my concerns. I sincerely hope this proposal does not move forward, as it would ultimately be funded by city taxpayers.

In my view, this would be a significant misuse of public funds. There are numerous pressing issues throughout the city, including widespread potholes and other infrastructure concerns, that should take priority over something as nonessential as decorative lighting for the fountain.

I am genuinely surprised that this is even being considered given the many more urgent matters that require attention and investment.

Please let's stop wasting money on things that don't matter
