Collections That Impact Families

"Your library has been a lifeline for our family. I have been bringing my kids here for years, they grew up going here. Now we have some completing masters, and in high school. Your dedication is much appreciated. You truly are a lifeline." Clemens Mill parent

Last fall, a parent came into Clemens Mill shortly after a difficult doctor's appointment. She had just found out that her child had been diagnosed with ADHD. Staff gave her a walkthrough of our educational kits and pre-loaded learning tablets. She teared up when checking out, and said,
"I don't feel like I am alone anymore."
