Good day. I live at [REDACTED] in Cambridge. I'm emailing in regards to the proposed development on the lot behind my house. I believe the file number is R04/22. I'm not opposed to it as I understand it's going to get developed into something at some point and it's better to be a townhouse instead of a multi story condo. My only concern is with how close it will be to my property. With it being so close I assume they plan on building a fence? How high can the fence be and do I have a say in it? A proper six foot fence with two feet of double lattice would be my preference. Also will there be any windows facing into my yard from the second story? Privacy is nice. That's all. Thanks. [REDACTED]
