Soper Park Amenity Design

Public Engagement – Major Themes Comment Response Table November 2022

The following major themes were collected through comments feedback provided in the survey for the Soper Park Amenity Design project. This list of major themes does not include every single comment – they reflect the most repeated comments received.

Major Theme	Response
Disc Golf	
Expand and improve the existing disc golf course (e.g. from 9 to 18 holes, add tee pads and signage) and reduce conflict between proposed walking paths.	The disc golf course will remain as a site feature adjacent to the proposed amenities. Improvements to the disc golf course will be included in the proposed design. Proposed paths in the amenity design will avoid crossing through the course. Expansion cannot be a part of this project at this time.
Amenities	
Consider adding new amenities not currently included in the design (e.g. basketball courts, cricket, lawn bowling, amphitheatre, pickleball, skate park)	Considerations for amenities not currently in the design (that include larger sports amenities) have been examined. With larger sports amenities there must be careful consideration of required spatial needs, and sound attenuation. Due to these limitations, certain sport amenities have been excluded from the project scope. Although, pickleball has been included as part of the proposed conceptual amenity design based on significant feedback received in public engagement.
Add a dog park	The addition of a dog park in Soper Park was considered. Due to the spatial needs and sound attenuation requirements of a dog park, this would be incompatible with other proposed amenities.
Add outdoor workout equipment	Outdoor workout equipment was originally proposed as part of the conceptual designs in public engagement. As reflected in the survey results, the amenity has limited value in comparison to other desired amenities. Taking into consideration the feedback received and the budget for the amenity item, it was excluded from the proposed conceptual amenity design.
Add a skating rink	A neighbourhood skating area is being considered as part of the proposed conceptual design.
Excitement for the splash pads	The splashpad is currently proposed as the primary amenity in the conceptual design.
Washrooms are needed	Gender neutral & universal washrooms are being proposed to service the splashpad amenity.

Major Theme	Response
Access	
Improve and increase connections to existing infrastructure (sidewalks, cycling, roads)	Sidewalks in the parking lot and around the building are included in the conceptual design to connect to roads and possible future improvements.
Make Soper Park physically accessible and affordable	The amenity design is planned to meet all accessibility and building code requirements, in addition to being admission free (as all splashpads at the City continue to operate).
Design	
Clean up brush, retain natural elements and add more trees and greenery.	Existing trees that do not directly impact the proposed amenity design will be retained. Memorial trees will be protected along with other valuable natural elements. New trees are proposed in various areas of the conceptual amenity design.
Add more seating and benches	Different types of seating and benches are proposed throughout the conceptual design and are a desired amenity according to survey results.
Add more shade structures	Shade structures to service the amenity areas are proposed in the conceptual design, and are supported by survey results.
Parking considerations: - Address need for more parking - Add more amenities and less parking	Feedback received as part of the survey showed a large number of survey participants (70%) will be driving personal vehicles to the site. There will need to be additional parking considered to meet the needs of site users visiting the amenities. Due to this, there can not be less parking and more amenities.
Pool	
Add a pool at Soper Park	A pool is not within the scope of the project at this time.

Safety	
Clean up evidence of substance use	City Parks are monitored and cleaned regularly.
	Any drug paraphernalia is removed as it's found,
	or as notified through the City's Cleanup Request
	Portal (<u>Clean-Up Request Submission</u>).
Prevent an encampment from forming	Social services are notified when an encampment
	starts up, but it unfortunately takes some time
	and other resources to help move the person
	along to proper sheltering.
Make safety a priority	It is always our intent to have safe parks. Part of
	this project is to offer multiple amenities to appeal
	to a wider population and different types of site
	users. This integration will create safer spaces in
	the community.
Community	
Soper Park improvements will be positive for the	These proposed changes are very exciting
community	improvements for the local residents and the
	greater community who visit Soper Park.
Programs	
Use Soper Park for programs (e.g., nature groups,	There are many opportunities proposed within
cultural gatherings, fitness classes, movie night)	these improvements to include programming at
	the park, that can be supported by the
	community.

Good Morning,

I will not be able to attend the meeting next week but I wanted to make sure my comments were included or added to the park suggestions.

Disc golf. Pickleball.

There is room for 9 more baskets, even if they are "ace run" distance. The disc gold community comes for league nights, and glowie golf in the winter. There's no where in Cambridge to play a full 18. We all travel to Paris, Brantford or Guelph for quality courses. Cambridge is missing out.

Pickleball. Fastest growing sport now. There isn't enough courts, or court times to play. Soper park can accommodate a few courts. It doesn't have to take away from the tennis courts at all. There's lots of room.

Thank you

Sue

Hi Claire, I am a long time resident of ward 4 and love Soper park. Sad to see the pool filled in enjoyed noon swims quite a bit. What I would like to see put in that space is 2 or 3 pickleball courts. As you are probably aware its the fastest growing, all ages sport in North America. Once the courts are in thereis very little maintainence is required, except for putting up nets in the spring, which I am sure a few volunteers would be happy to do.

The courts could be used for many different activities as well, including outdoor yoga or fitness classes.

Thanks Glen

Hi Claire,

It was nice to meet you last Thursday at the P.I.C to discuss the proposed amenity designs at Soper Park. While our local disc golf club, Grand River Disc Golf Association (GRDGA), was hoping the proposal would include some much needed improvements to the disc golf course, it was also great to hear that the proposed design concepts were not intended to impact or remove the disc golf course, which is what we were told earlier in the year when we approached the City to discuss course/safety improvements. That said, we do have some serious safety concerns with the proposed design concepts that would have a negative impact on the disc golf course and the safety of other park users. While disc golf integrates very well into shared park space settings, it does require thoughtful planning and best practice design to ensure the safety of all park users. Unfortunately, all 3 design concepts propose a new trail connection that runs through the middle of 3 disc golf holes. The location of this proposed feature does not follow disc golf course design best practices, ultimately creating an unsafe environment for trail users and players. Disc golf is a relatively new sport and we understand the design team my have little knowledge about disc golf design and what impacts park features may have on the disc golf course and visa versa. The GRDGA has some very experienced disc golfers with significant disc golf course design experience, including several successful courses designed and constructed locally here in Waterloo Region. I would strongly suggest reaching out and utilizing this free resource to help ensure the implementation of any of the proposed amenities will not negatively impact the disc golf course or the safety of others around the course. To be clear, we are in full support of the proposed park improvements and just want to make sure disc golf and the proposed work are integrated together safely. We look forward to having future discussions around this project and providing any assistance/information/resources as needed.

Regards,

Hi Claire,

I am seeing info about a meeting for the future of Soper Park.

Do we need to stay from 3pm-8pm? or what is the format? (I work full time so wondering what I need to do to get there)

I am a 61 year old female and want to advocate to keep the disc golf course in Soper Park. So many of us enjoy this sport immensely and it is a wonderful intergenerational activity.

Improvement by the city with proper t-pads would be great. It is wholesome fun and exercise and with the library allowing the equipment to be borrowed at no cost, it is a recreational activity that is available to most people.

There are disc golf leagues that take place at Soper Park and they provide opportunity for friendly competition.

The course also draws visitors to the area to play this picturesque disc golf course, and then they frequent our restaurants afterwards.

I look forward to hearing from you.

Kindest Regards,

Shelley

- i. Shade sails
- k. Community garden
- Splash pad
- m. Quiet seating with benches
- n. Open activity areas
- Yoga area
- p. Neighbourhood skating rink
- g. Bicycle rental and /or bike racks
- 6. Two splash pad options were shown at the Public Information Centre. Please rank the individual splash pad features you would like to see in the final design for the new Soper Park Amenity. Order the features below with your favourite as #1 and your least favourite as #8.
- Two water dumping buckets (Two water buckets periodically fill with water before dumping onto the play pad below)
- Large dumping bucket (A big bucket fills with water before dumping onto the play pad below)
- Rotating water squirt (Water players can rotate the equipment 360 degrees)
- Mist archway (Provides a cool water spray of multiples nozzles as water players run through the archway)
- Vertical mist spray (Ultra low spray nozzles create a refreshing mist spray effect)
- Aerial spinning plate (Creates a gentle clapping sound as it spins the flipping plate and splashes onto the play pad below)
- Spinning water hoop (Water players can pass through or grab an orb and spin it, spraying water in multiple directions)
- Twirling orb (Creates an interactive play element where water players can spin the orb, spraying water in multiple directions)
