

Parks Master Plan Discussion Period Questions

Chris Ziemski, Manager of Parks and Recreation Operations will be the discussion facilitator. Staff would benefit from Council's insight into the following questions:

1. What are your thoughts about parks? What is the City doing well, and what could use improvement?
2. What are the most significant issues the Parks Master Plan should address?
3. What are you hearing from your constituents?
4. What "Levels of Service" would be most important for improvement to bring to Council this fall?
5. Are there any service levels that the City can reduce to offset service level improvements?
