**Subject:** [External] New Subdivision off Riverbank Dr.

City of Cambridge meeting being held right now (Nov 21). My name is Caroline Berch, and I am a resident of Riverbank Dr. and have been following this meeting. The proposal states that Intermarket will connect Middle Block and Allendale. So residents will come down Intermarket from the new subdivision and reach Allendale, then, to get to King St., they will likely turn onto Riverbank then follow Riverbank to King St. When will Intermarket, which now stops at Boychuck, go all the way through to King St.? This will allow the residents of the new subdivision to follow Intermarket all the way to King St. where hopefully there will be a traffic light to allow them to easily turn left (which is not so easy from Riverbank)? Thank you.

*Caroline*
